“Thank you for all
your help recently, it
went astonishingly
smoothly and I was
most impressed
with your
professionalism.”

Mrs P, West Sussex

Oakland Security Systems Ltd are proud to
be an NSI approved company.
The National Security Inspectorate (NSI) is
recognised as the leading certification body
for the security and fire protection sector in
the UK. NSI approved companies work to
the highest industry standards demanded
by the Police and Fire Services and the
insurance industry.

Oakland Security - Providing Bespoke Security Products and Services for Your Home and Business

From an individual domestic property to a large integrated security system, we are an NSI approved company with over 30 years' experience. We can provide a wide range of professional security services and can offer a comprehensive range of products and services which can be tailored to your specific needs, be it installation and regular servicing or full 24 hour monitoring of your premises.

Our Team

We pride ourselves on our dedicated team of helpful, capable and knowledgeable staff who are fundamental to the high standards of service we expect. Some have been with us for many years, ensuring continuity and the knowledge that you will be dealing with a familiar face.

Security Technology

Security technology is a fast moving field and we constantly review and assess developments in the industry in order to offer the very best solutions to our customers. All staff are provided with training on the relevant current technology.

Gate & Railing Design

Our specialist in-house team can fabricate, install and automate gates and/or railings to your specific design. From a cantilevered sliding gate to elegant bespoke ironwork, we apply a wealth of skills, experience and expertise to create attractive gates and railings to the highest standards.
